What They Sell

-  Personal Computers

Where They Sell

-  Retailers — Croma, Amazon
-  Direct — AtliQ e-Store
-  Distributors — Neptune

The Problem

AtliQ Hardware is growing rapidly but still relies heavily on Excel files for data analytics. Because Excel files are hard to consume and ineffective for generating quick insights, the company lacked effective analytics and faced a major financial loss in the Latin America (LATAM) market.

4. Gross Margin Below Benchmark

The company recorded a 36.41% Gross Margin, falling 2.17% below the target benchmark.

5. Customer Concentration & Margin Decline (Amazon)

Amazon remains a massive revenue driver, generating \$2,418.17M (\$2.42bn) in Net Sales, but registered a -1.81% decline in Δ GM% due to heavy promotional allowances.

6. Product Profitability Challenge (The Volume Trap)

High-volume segments like Notebooks show strong Gross Margin % but suffer a structural Net Profit collapse to -17.5%, as aggressive customer acquisition and marketing costs completely outstrip the \$7.05M Gross Margin.
